ECO is pleased to announce a new CEPT workshop “European Spectrum Management and Numbering” on 28 February 2011 which is specifically designed for newcomers in the telecom area, both working for national regulators and in the industry, as well as for those who would like to broaden their knowledge of modern regulation of telecommunications in Europe.

The workshop will be build up around the following questions:

- Why CEPT/ECC?
- Spectrum regulation vs. equipment regulation – how does it work in Europe?
- Get familiar with the ECC routine!
- ECO, who are we, what can you get from us?
- What are the current spectrum policy trends?

Date: 28 February 2011 – starting at 10H00 and finishing around 17H00

Location: ECO
European Communications Office
Nansensgade 19, 3rd floor
1366 Copenhagen
Denmark

Participation is free of charge but is limited to 50 people (first come, first served).

Please register using the link: [http://www.ero.dk/registration-iesmn-feb11](http://www.ero.dk/registration-iesmn-feb11)

For additional information, please contact: Mr. Marc Le Devendec (ledevendec@ero.dk).
SESSION 1: Why CEPT/ECC? / Why are we here?

10.00 – 11.00

1.1. National Regulatory Authorities (NRAs) versus the ITU – the context to explain why we need CEPT
1.2. Conference of Postal and Telecommunications Administrations (CEPT)
1.3. ECC Membership and mission / Structure / Partners
1.4. ECC and ITU

SESSION 2: The European framework / Spectrum regulation vs. equipment regulation

11.30 – 12.45

2.1. European Telecommunication Standards Institute (ETSI) and European Commission (EC)
2.2. Overview of the European Framework (ECC-EC-ETSI relationship) including Market surveillance and enforcement
2.3. Numbering and Networks (WG NaN)

SESSION 3: ECC in practice

13.30 – 15.15

3.1. Deliverables and implementation
3.2. ECC routine
3.3. The Office (ECO) and its services

SESSION 4: Trends in spectrum management

15.45 – 17.00

4.1. WAPECS concept
4.2. Cognitive Radio
4.3. M2M Communications
4.3. Questions
